OBJECTIVE

Final Year Computer Science student with professional experience in Software Quality Assurance and a strong foundation in software development, web development, programming, problem-solving, and collaborative project environments. Seeking to work as a Software Engineer in a progressive organization where I can apply my technical knowledge, software development practices, and web technologies to contribute to the creation of reliable, scalable, and high-quality software solutions. My goal is to continuously strengthen my expertise in Software Engineering, Full Stack Development, Artificial Intelligence, and modern technologies while supporting organizational growth through innovation, adaptability, effective teamwork, and a commitment to excellence.

EDUCATION

University of Management and Technology (UMT), Lahore

Bachelor of Science in Computer Science

Final Year Candidate | CGPA: 3.75 / 4.00

Oct 2023 – 2027 Expected

Relevant Coursework: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Systems, Operating Systems, Software Engineering

Government Khawaja Rafique Shaheed College, Lahore

Higher Secondary School Certificate (HSSC) – Computer Science

Grade: A+

EXPERIENCE

Senior Executive Quality Assurance – Abstron | XR | Games

May 2023 – Dec 2023

- Collaborated with developers and project managers in Agile/Scrum environments to improve software quality.
- Assisted in debugging and resolving software-related issues before production releases.
- Conducted validation testing and analyzed application behavior to improve performance and stability.
- Supervised junior QA testers and supported structured testing workflows.

Quality Assurance Analyst – Abstron | XR | Games

Jul 2022 – May 2023

- Performed QA testing for 30+ Android and VR games published on the Google Play Store.
- Designed and executed structured test cases while validating software defects and edge-case behaviors.
- Prepared detailed bug reports and collaborated with developers for issue resolution.
- Participated in release preparation and software validation activities.

Quality Assurance Intern – Abstron | XR | Games

May 2022 – Jul 2022

- Assisted in manual testing activities including functional and regression testing.
- Executed test cases for Android applications and games.
- Prepared QA reports and defect documentation for testing processes.

- Worked on data analysis, visualization, and predictive modelling projects using Python-based tools.

Data Science & Analytics Intern – Developers Hub Corporation

Oct 2025 – Dec 2025

- Contributed to data collection, cleaning, analysis, and reporting while supporting data-driven projects.

TECHNICAL SKILLS

Programming Languages: Python, C++, C, C#, SQL, JavaScript

AI & Data Concepts: Artificial Intelligence, Machine Learning Fundamentals, Data Mining, Prompt Engineering, AI Agents Fundamentals

Software Development: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Debugging, Software Testing

Tools & Platforms: Git, GitHub, VS Code, Trello, Linux Environment

Web Technologies: HTML, CSS, JavaScript

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication Skills

ACTIVITIES & LEADERSHIP

- Volunteered as a Peer Tutor for Computer Networks, assisting fellow students in understanding networking concepts, protocols, and coursework-related topics.
- Participated in academic discussions, project collaborations, and technical knowledge-sharing activities within the university environment.
- Worked closely with developers, testers, and project managers during QA roles, demonstrating teamwork, communication, and coordination skills.
- Contributed to collaborative project environments by supporting testing activities, documentation, and issue reporting processes.

HONORS & ACHIEVEMENTS

- Rector's Merit Award (4.00/4.00 GPA)
- Dean's Merit Award (3.95/4.00 GPA)

CERTIFICATIONS

- English Immersion (SD-100) Certification – UMT

LANGUAGES

English – Fluent

Urdu – Native
